1.SURVEY METHODOLOGY AND RESPONSE RATE

The questionnaire was compiled by Matthew Owens, Rural Housing Enabler for Pembrokeshire and approved by the Local Government Data Unit (Wales), Pembrokeshire County Council, Pembrokeshire Coast National Park Authority and Llanddewi Velfrey Community Council.

Section 1 was completed by all respondents and focussed on

- . Type of homes and number of bedrooms
- . Tenure of households
- . Age & sex profile of households
- . Length of residence
- . Potential new households in need of housing

Section 2 was completed by potential households in housing need and focussed on

- . Reason for being unsuitably housed
- . Age profile of potential households
- . Household composition
- . Time scales of need
- . Special needs requirements
- . Preferred tenure and type of accommodation required
- . Affordability of rent or mortgage
- . Connections to community

Section 3 was completed by all respondents and focussed on

- . Support for provision of affordable housing developments
- . Personal comments regarding affordable housing in the area
- . Possible development sites in the area

Sampling

Survey forms were distributed by hand by the members of Llanddewi Velfrey Community Council between the 8-23th of July this was facilitated by the Rural Housing Enabler. The questionnaires were sent to all 169 addresses on the council tax register for the Llanddewi Velfrey Community Council Community Council area. The address list was provided by Pembrokeshire County Council.

Respondents were given 14-21 days to complete and return the questionnaire, in a 2nd class freepost envelope that was provided with the questionnaire. The deadline for the return of the surveys was the 15th of August 2008.

Included with each survey was an accompanying explanatory letter from the Community Council (**see appendix 2**) and a questionnaire (**see appendix 3**).

The form only allowed one household per property to identify itself in need. Additional household and non-resident forms were available from the Rural Housing Enabler, No additional household or non-resident questionnaires were requested. A total of 16 surveys were distributed.

Response

A total of 66 questionnaires were returned to the Rural Housing Enabler for data entry and analysis. A total of 64 questionnaires were returned from occupied households, all were completed or part-complete and 2 were returned incomplete.

The 2 incomplete questionnaires, were discounted from the analysis.

According to the figures from the council tax office, of the 169 addresses identified in the Llanddewi Velfrey Community Council area, 2 properties are currently unoccupied. This provides us with a figure of 167 occupied households in the Community Council area. This equates to a return rate from the occupied households of 39% (64/167).

2. SUMMARY OF ANALYSIS

Percentages in this section apply to the number of respondents to the survey who answered that particular question. This is known as adjusted percentage.

The overall response rate from occupied households was 39%

11%(7 households) of respondents identified a household in potential housing need over the next 5 years.

6.3%(4 households) of respondents identified their current household as in need of moving over the next five years.

4.7%(3 households) of respondents identified someone in their current household as in need of moving in the next 5 years, who would form new households within the community.

46% of respondents who identified a household in housing need stated they wanted to buy on the open market, 23% indicated they wanted to pay for the property by renting from a Local Authority or a Housing Association, 23% indicated they wanted to buy as a shared owner and 8% indicated they wanted to rent privately.

86%(6 households) of households who expressed a housing need detailed that need as within 3 years, 14%(1 household) detailed that need with the next 3 to 5 years.

43%(3 households) of respondents who identified themselves as being in housing need, expressed a desire for 2 bedroom properties, 43%(3 households) for 3 bedroom properties and 14%(1 household) for 4 bedroom properties.

Of the households that identified a housing need 71%(5 households) described their household as families (one or two adults with children) and 29% (2 households) described their household as a single person household.

The majority of the people who identified themselves as being in housing need were aged between 20-44 years old.

The main reason respondents gave for currently being unsuitably housed, was that they needed to live independently.

71% (5 households) of those expressing a housing need were not on the Local Authority or Housing Association, housing transfer or waiting list.

53% of respondents stated they would consider supporting a small development of affordable housing to meet local housing need, 35% of respondents said maybe and 12% said they wouldn't support it.

3. ANALYSIS OF THE SURVEY COMPLETED BY ALL HOUSEHOLDS

The purpose of part 1 of the questionnaire was to indicate the main housing patterns for the sample area.

Presentation broadly follows the questions set out on the survey form.

Percentages in this section apply to the number of respondents to the survey (64) who answered that particular question. This is known as adjusted percentage.

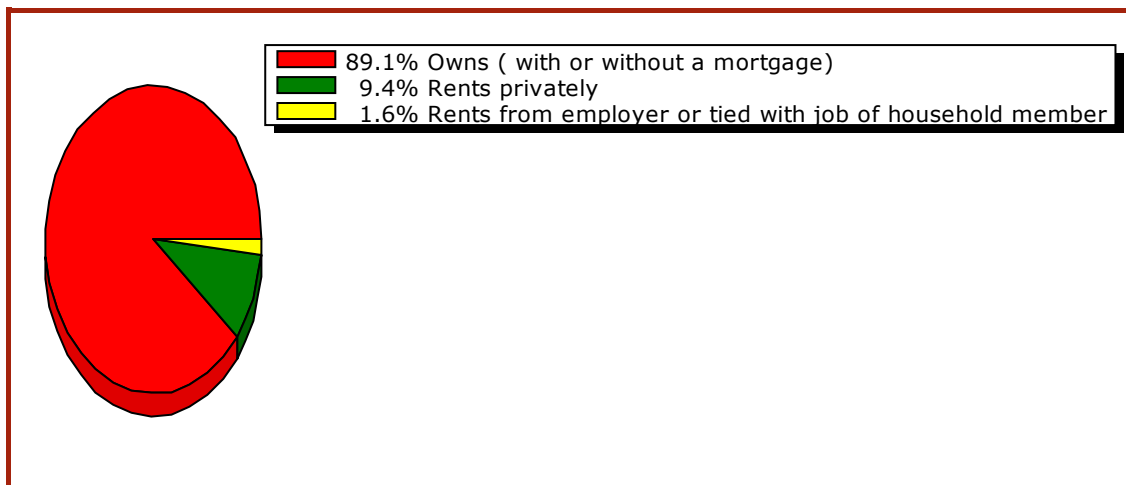

Q1. Is this your Main Home?

All 64 respondents stated their Llandewddi Velfrey address was their main home.

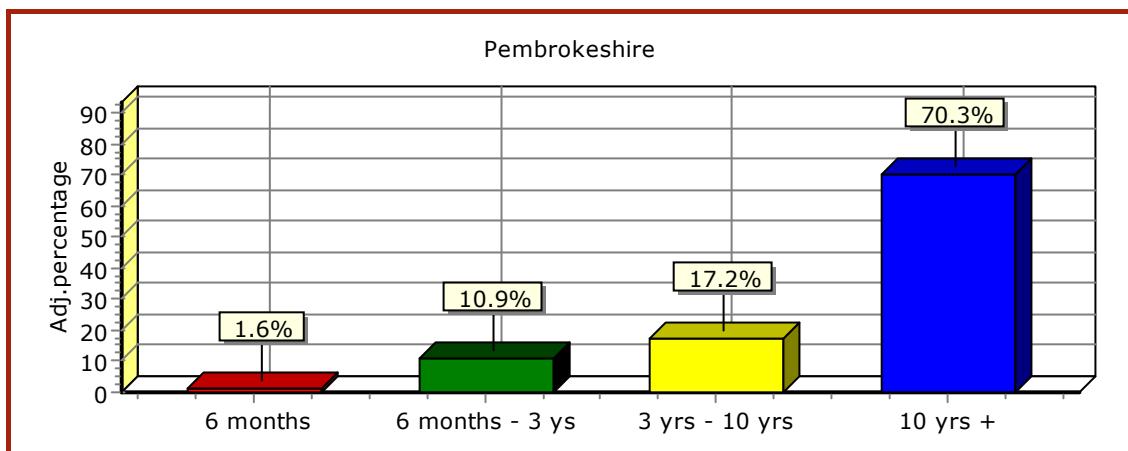

Q2. What type of house does your household live in?

Q3. Does your household own or rent this property?

Q4. How long have you lived in?

Q5. How many bedrooms does your home have?

Q6. How many people of each age and sex are there in your household?

The total number of people identified in respondents households was 141.

This equates to an average household size of 2.2 people (141/64)

Q7. Would your household, or anyone in your household, expect to need to move within Llanddewi Velfrey Community Council area in the next 5 years?

Making a total number of respondents identifying themselves or a member of their household as being in housing need as 11%.

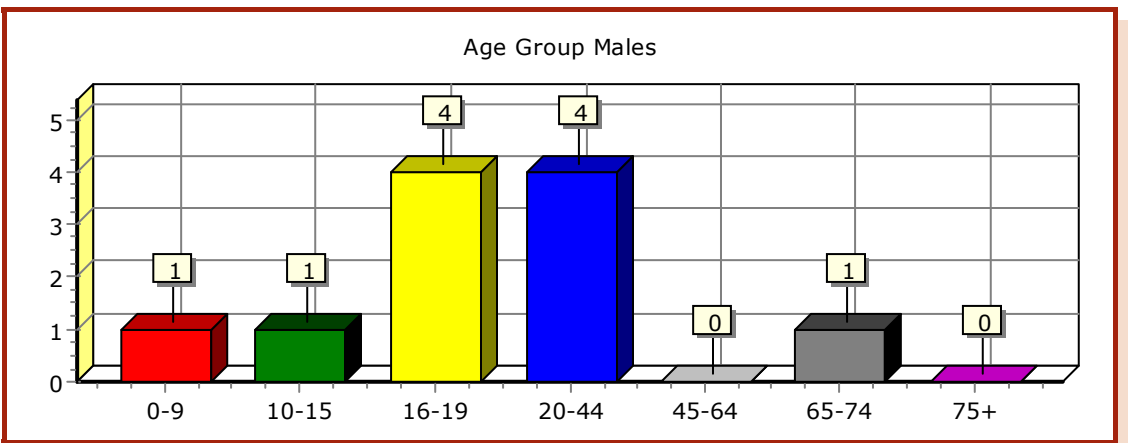

4. ANALYSIS OF THE SURVEY COMPLETED BY POTENTIAL MOVERS

The purpose of part 2 of the questionnaire was to identify those people in housing need and to indicate their housing requirements and reasons for housing need.

7 respondents completed this part of the form. The data in this section is presented by the actual number of responses to each question, rather than as a percentage of responses.

The total number of answers to each question is detailed at the end of the question name in brackets (not all respondents answer every question). Some questions allowed respondents to give more than one answer (these are known as multi-code questions), the total number of answers are again shown in brackets after the question name, but in this case with a TV for "total vote". Therefore the number of responses to a particular answer to this type of question is the number of "votes" that answer achieved.

Q8. How many people of each age and sex in the household that need to move? (7)

The response to this question shows us that the age group with the highest number of respondents who have identified themselves as being in need is 20-44 age group.

In total 19 people in 7 households have identified themselves in need. This equates to an average household size of 2.71 people.

Q9. How would you describe this household? (7)

Q10. How many bedrooms would you expect to need? (7)

Q11. Why does your Current home not meet your needs? (TV = 13)

Q12. When would you expect to need to move? (7)

Q13. Does your household have a specialist housing need? (TV = 6)

All six respondents to this question answered no.

Q14. How much would the household be able to afford if renting? (6)

Respondents were asked to consider one third of the households net income for the period, and not to include housing benefit.

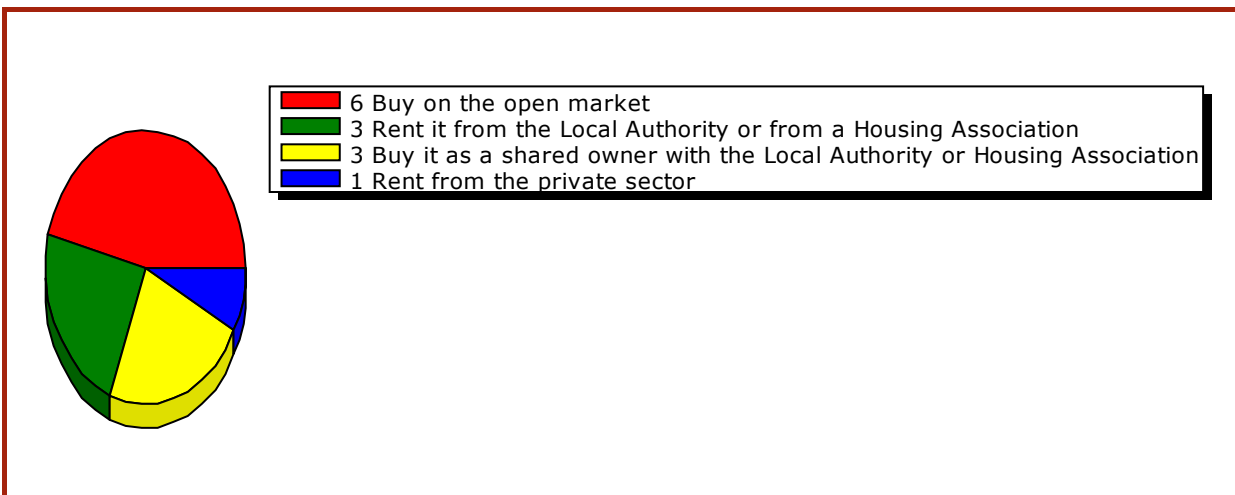

Q15. How much would the household be able to afford if the household were buying a property? (7)

Respondents were asked to consider three times the household's gross income for mortgage purposes plus any savings and equity the household may have in any property.

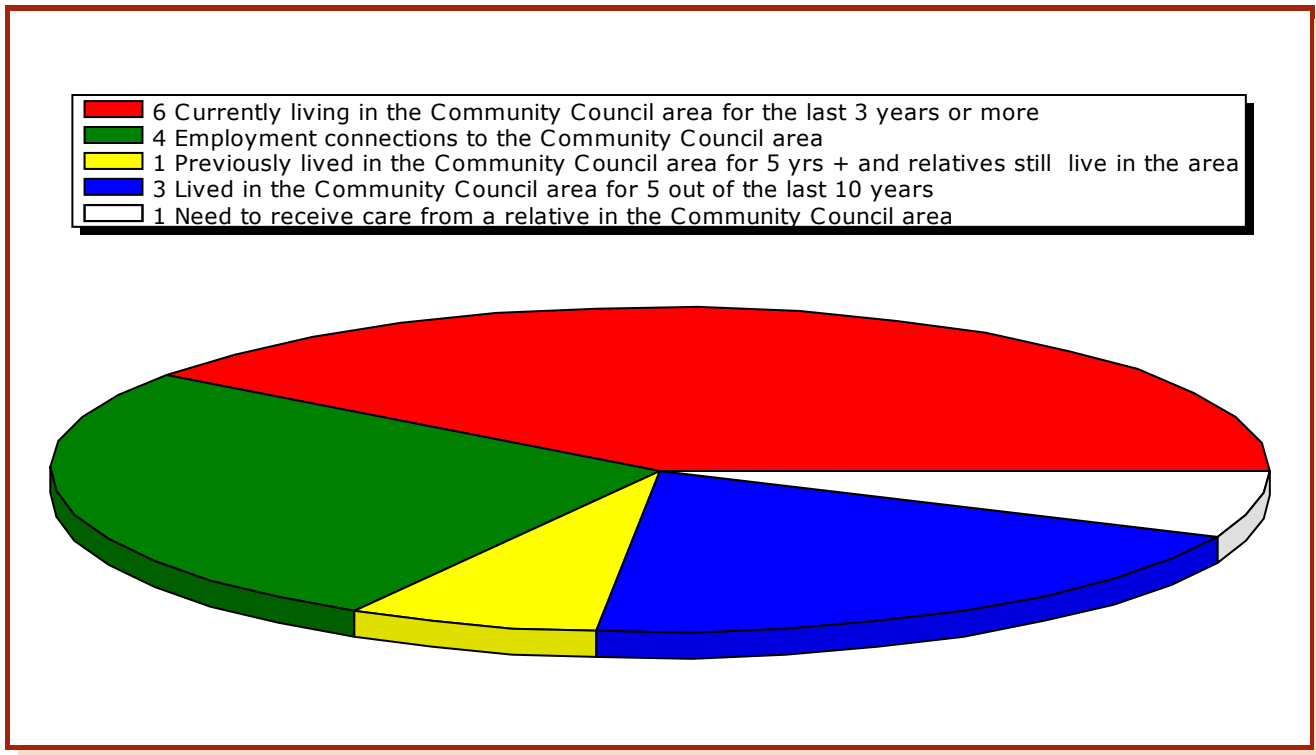

Q16. How would this household consider paying for this accommodation? (TV = 13)

Q17. In which area would the household consider living? (TV = 7)

All seven respondents stated that they wanted to live in the Llanddewi Velfrey community council area.

Q18. Do you have a local connection with your community of first choice? (TV = 15)

Q19. Is the household currently on the Council, or Housing Association, housing transfer or waiting list? (7)

5. ANALYSIS OF SECTION 3 COMPLETED BY ALL HOUSEHOLDS.

All the respondents were asked to complete part 3 of the questionnaire. The purpose of this section is to identify the community's feelings towards a affordable housing development in the area.

Percentages in this section apply to the number of respondents to the survey (64) who answered that particular question. This is known as adjusted percentage.

Q20. Apart from you or anyone currently in your household, do you know anyone with a local connection who is not currently residing in the Llanddewi Velfrey area that would like to or need to set up home in the Llanddewi Velfrey area?

Q21. Would you Support a small local development of affordable housing to meet local need in the area?

Q22. Are there any comments you would wish to make regarding affordable housing in the Llanddewi Velfrey Community Council area?

(PLEASE SEE ADDENDIX 1)

6. AFFORDABILITY OF MOVING

This section considers the financial information given by the households in Questions 14 and 15 in regard to how much households would be able to afford if they were buying or renting a property. The information is compared to Open-market house prices, private rentals market and social housing rental prices.

Open-Market Property Price Data (from Land Registry)

The average residential property sale price for Pembrokeshire from July 2008 to Sept 2008 for Pembrokeshire was £158,154 (Land Registry).

Private Rental Data (From Local estate agents in July 08) for Llanddewi Velfrey area.

The following data was obtained from local Estate Agents in June 2008. No properties were able to be found that were available to rent on the open market in the Llanddewi Velfrey area at the time. The figures given below are estimates of the average rental prices for the Llanddewi Velfrey area from local estate agents. A number of estate agents also stated that availability of private rented property was limited in the Llanddewi Velfrey area.

| | |
|----------------------------------|------------------------------|
| Detached 4 bedroom | £700/£750pcm (approximately) |
| Semi-detached/Terraced 3 bedroom | £525/£575pcm (approximately) |

Affordability

Affordability - Ability to purchase a property on the open market:

It is clear that the majority of those households who expressed themselves as being in housing need could not afford to purchase a property on the open market. Of the respondents who answered Question 15 on how much they would be able to afford if they were buying a property, 6 households indicated they could afford prices ranging from between £40,000 to £140,000, which means they would have difficulty in being able to afford to purchase a property in the Llanddewi Velfrey area on the open market.

The average sale price in the Llanddewi Velfrey area from July 08 - Sept 08 was £217,872 (Land Registry). As this price is an average, there may have been some properties that will have been lower in price. Some of these may have been affordable to some respondents.

1 household indicated they could afford over £180,000. So this respondent may have been able to meet their housing needs on the open market. But they might find it difficult finding suitable accommodation at that price level in the Llanddewi Velfrey area.

Affordability - Ability to rent a private property on the open market:

Of the respondents who answered Question 14 on affordable Rental Levels, 4 households indicated that prices ranging from £50 (£216pcm) - £90 per week (£390pcm) would be affordable for them.

None of these households could afford to rent a property on the open market based on the estimated average rental prices listed previously.

The two other respondents to this question stated they could afford prices ranging from £91 per week (£390 pcm) to £150 per week (£650 pcm). It is clear that these respondents could possibly afford to rent in the private market, but based on the evidence collected from local estate agents, they might find limited availability of suitable private properties to rent in the area.

SOCIAL HOUSING

Average rental costs for Social housing in the area is £58.67 per week. It is clear that the majority of people who expressed themselves as being in housing need and looking to rent, could afford to rent social housing.

The turnover (the frequency with which properties are let) of these properties is low in the area, 3 lettings since 2003 for Local Authority owned properties. But it should be noted that these properties are also subject to qualification and personal circumstances, and are not restricted to local occupancy. Therefore, the waiting list can include households from outside the area. This in turn, reduces the chances for local people to be housed.

7. CONCLUSIONS

The majority of households who identified themselves in need would not be able to rent or purchase a property on the open market in the Llanddewi Velfrey Community Council area. Also the availability of properties to rent on a long term tenancy basis appears to be limited. The housing market is clearly not serving all the people of the Llanddewi Velfrey Community Council area, justifying an interventionist policy in relation to the provision of affordable housing for local people.

It is clear that the majority of people who expressed themselves as being in housing need and looking to rent, could afford to rent social housing. However it should be noted that the availability of such properties which are restricted to local occupancy is minimal.

The people who identified themselves as being in housing need generally wanted to move within the Llanddewi Velfrey area, which tells us that it is desirable to meet locally identified need with local developments.

7 households identified themselves in housing need and it is normally assumed that a proportion of this need will satisfy its housing requirement over time and some will naturally move away from the area irrespective of their housing need. Therefore, if a third to a half of this need is taken as a guideline of actual need, we can surmise that 2 - 4 households are in need of affordable housing.

Affordable housing developed under affordable housing policies can have occupancy restrictions placed upon them where a private developer is involved. Welsh Assembly Government (WAG) Guidance asks that occupancy restrictions are not placed on Housing Association developments where the proposal is within the settlement. On rural exception sites WAG advises that the local planning authority needs to ensure that the housing continues to serve its intended purpose in the future, and will need to satisfy itself of the adequacy of controls that the Housing Association is operating, in terms of occupancy and affordability. If the controls are considered to be inadequate, then occupancy

controls can be justified.

Policies in the Joint Unitary Development Plan allow for the negotiation of affordable housing, as part of an open market development, or as a rural exceptions site scheme. Both could have occupancy restrictions to local people only. Therefore the specific affordable local housing need identified in this survey could be served by a specific affordable local housing solution, with any future affordable housing for the Llanddewi Velfrey Community Council area.

The survey was conducted at one particular time and is worth noting that local affordable housing needs could be a changing requirement.

Appendix 1

Q22

When planning permission was given for houses behind the petrol station we were given to understand that 'affordable' houses or houses to rent was part of the permission. What happened to that? or was it another sprat to catch a mackerel? What became of the play area, the one by the village hall which means crossing a very busy road. Planning my foot!!!

The only matter we both wish to raise is when is the village going to be by-passed as the traffic travelling through the village is appalling and the noise throughout both day, evening and night is awful.

Area needs bungalows for the elderly to remain in the area.

My son lodges with us at Llanddewi Velfrey his employer transferred him to Haverfordwest in 2006. Due to the lack of affordable housing his wife and children live in his house in Newport (Gwent). My son has requested a transfer back to Newport (Gwent) due to the lack of affordable housing in Pembrokeshire, so Pembrokeshire has lost a young working family.

We feel the infrastructure couldn't take it, after all we are still not on main drainage, no mains gas available and road poorly maintained.

We were given to understand that of the 20 houses/bungalows built known as Maes Dolewen, some should have been affordable housing, this did not happen.

Whats happening with the dueling of the A40, is it going ahead? people seem to think so.

Affordable housing is needed for many local families.

This village has already expanded with a large new development, if affordable housing was needed why was this not taken into consideration for this site.

Local Housing Census

Dear Resident,

The Community Council is aware that the provision of affordable rural housing is a very important topic, and would like to ask you to complete the enclosed questionnaire in order to assess the local situation.

The Rural Housing Enabler for Pembrokeshire has been asked to conduct a census of local housing on behalf of the Llanddewi Velfrey Community Council.

The questionnaire is being sent to all residents within this area and will only take 5-10 minutes to complete. Your views are important, even if you do not intend to move in the near future please complete sections 1 and 3.

In addition to establishing the needs of the current community we hope to hear about the requirements of households with a local connection who need to relocate to the area. This is often people who have moved away, but in general terms means that they have strong family or residential links to the area, people who are employed in the area and people who need to receive or provide care for a relative in the area.

Your answers will be confidentially analysed by the Rural Housing Enabler and the data will be reported in a way that no individuals or households could be identified. This questionnaire gathers information which may contribute towards future housing strategy in the Llanddewi Velfrey Community Council area. If appropriate the findings may be used to justify the need for a small scheme of affordable homes in the area for local people.

Please return the completed Questionnaires in the freepost envelopes provided in the next 14-21 days.

Thank you in advance for helping with this important work.

David Perkins
Chairman, Llanddewi Velfrey Community Council
